Brown Given Superior Teaching Award; Jones Fund Lecturers Named

Dr. W. Edward Browne, professor of English, was given a $1000 superior teaching award on Friday afternoon's Founders' Day ceremonies.

The citation read: "To Lafayette, he was extremely gratified by the award. Other people might have deserved it more, but he is delighted that the selection committee sensed his efforts in this area." Dr. Browne spent a semester last year at the Technical University of Warsaw in order to complete the requirements for his doctorate. Dr. Watt spent last year in India as the head of a teaching team.

There will be a combined "special". This is true: Millie's Going for Good

brady o'hearn

we're almost alone!

Millie Botes has resigned.

She was the one so elegantly and charmingly described in the society columns and by all those who knew her. She was a true beauty, with a smile that could light up a room and a presence that commanded attention.

Millie, known to many as Dewey, was named speaker of the house and was a student council representative. She was also involved in student government, and an independent nation, and has always contributed to the community.

The awards are presented from the Student Council and the Lafayette College Foundation, and are open to any student who has contributed to the college in some way. The awards are presented at a ceremony in the Student Center, and are open to all students, faculty, and staff.

First Marquis Slaton Nov. 10

The First Marquis will be published Nov. 10, according to John Rapaport, editor-in-chief.

As pink as the past Marquis, the First Marquis will be a combination of art and photography. In addition, it will be a special issue to celebrate "special." It will be a combination of art and photography.

Room Parties, That Is

Everybody's Doing It

The 4:7 rule is OK!

Living group presidents feel the new 4:7 rule is OK. "It's a great improvement," said A. H. Smith, president of the United Nations Fencing Press Association. The rule allows students to wear sweatsuits and hoodies, and to participate in group activities in the living areas. The rule was officially announced by the Student Council last month.

Roommates, that is.

The rule was officially announced by the Student Council last month. The rule allows students to wear sweatsuits and hoodies, and to participate in group activities in the living areas.

Brown: More Vigorous Dedication

"The goal to strive for in meeting these three problems is world peace," said the rule.

The three problems are world peace, freedom from fear, and freedom from want. The rule was officially announced by the Student Council last month.

World Peace Cited

The goal to strive for in meeting these three problems is world peace through law, Pomeroy stressed.

"Anyone knows this cannot be accomplished without legal and war rules," Pomeroy said, "This is the only way to bring law and order into our world." He referred to the rule in the United Nations and the World Court.

The awards are presented from the Student Council and the Lafayette College Foundation, and are open to any student who has contributed to the college in some way. The awards are presented at a ceremony in the Student Center, and are open to all students, faculty, and staff.

Pomeroy sees law as means to peace

Continuing strengthened of international law-making agencies is the rule, Pomeroy said, "We need a system under which the rights of people are protected by established rules, where the dignity and freedom of the individual are assured, where the rule of law is a condition for peace and progress." He said that under the rule, states would be more vigorous in dedication to the United Nations and the World Court.

Pomeroy says the U.S. needs to "The Rule of Law: A Response to Revolution." The rule of law was defined by Pomeroy as "the system under which the rights of people are protected by established rules, where the dignity and freedom of the individual are assured, where the rule of law is a condition for peace and progress." He said that under the rule, states would be more vigorous in dedication to the United Nations and the World Court.

A Long Look Needed

The fraternity system...is at present in the throes of sweeping changes throughout the nation and at Lafayette...needs a governing body to handle its broad problems, such as discrimination, the de-emphasis of leadership, and the like. And the Fraternity Council, on the verge of oblivion during the past few years, would serve this function admirably.

The Interfraternity Council is too often evangelized in the wrong direction, in the minds of the students, the faculty, and the parents. The emphasis is put on the negative side—their mistakes, their crimes, their violations of fire prevention and such things. And yet, one of the main functions of a fraternity is to serve as handling a job which is just as important, perhaps now ready to handle a job which is just as important, but which is equally difficult and urgent.

The fraternity system has been in a state of transition for many years. Only four touchdowns have been scored with a cheer or roar. And at the end of the half, when the rain came, most of the crowd ran frantically to the nearest buildings and dorms to drink and watch the Syracuse-Penn State ball games when the underdog gets his dander up.

The mistakes—or indifference—made in American political, social and economic underdevelopment. Fifteen years ago we were given a book that was entitled that any building but Colton Memorial Chapel is tenanted that any building but Colton Memorial Chapel is tenanted.

To the Editor:

I was disappointed at the outcome of negotiations about library hours and concerned over the issue of the editors of this column on the 17th floor of Peace Hall. Certain doors have been opened, at least Rooms 302 and 402; others are still closed. Students—be it known—are welcome to visit Peace Hall, but we have no open circle. This is course during class hours and on other occasions. Peace Hall is open from 8 a.m. to 9 p.m., the only time it can be cleaned.

But what about reserve books, you ask. I have a suggestion that you might consider if you need additional papers. There is a room in Peace Hall that the librarians use, on a more restricted schedule than Viokele, by studying taking courses in just one.

THE DATING SEASON

I have recently returned from a tour of 600,000 American college campuses. It is a fascinating life, full of excitement and adventure, and full of problems. And I have listened to my findings and I am now prepared to tell you the single secret of successful dating.

This simple secret is simply this: be sincere. That is the most important thing, indeed the only thing. And how do you like to be teased? If you want to know, read the next article. It's titled "A Date Likes to be Taken to Nice Places.

A Date Likes to be Taken to Nice Places

1. A girl likes to be treated with respect.

When you call for a girl, do not drive up in front of the sorority house in a flashy sports car and ask her Walk respectfully to the door. Knock respectfully. When your girl is ready, lead her to the fraternity house. Don't ask her if she is enjoying herself.

2. A girl likes to be taken to nice places.

The first time you go out on a date, always remember to buy some Marlboros, and she will expect you to do the same. Going out on a date, she is probably going to think about her body, not a talker. I too was a listener so we just sat all night long, not a talker. I too was a listener so we just sat all night long.

3. A girl likes to be taken to nice places.

Come prepared with a few interesting facts that you can drop into the conversation. Like this: "Did you know

4. A girl likes to be taken to nice places.

Loves of Dobie Gillis", etc.)

Garnet Splash to Victory

Pards Lose Fourth, 4-0

On a field of mud and puddles the Maroon soccer team defeated Swarthmore Saturday, 4-0, on the opponents' home ground. The steady rain of the afternoon made ball handling difficult and slowed down both offensive and defensive play. The Garnet came out of the game with a 4-1 record, their only loss coming by Penn. The Pards now stand at 2-4 with five games remaining in the season.

The Leopards came up with their biggest threat of the day in the fourth quarter when they had four fast breaks that put them into good scoring positions. However, all four chances failed.

Sophomore Don West had one opportunity in front of the Garnet goal, but his kick went straight to the arms of the Swarthmore goalie. Other attempts failed due to the poor playing conditions of the field that resulted in crooked kicks.

The first score for Swarthmore came at 14:01 of the first quarter. Garnet linemen Jeff Tebow blocked a corner kick that was partially blocked by Leopards goalie Bill DiSchien, but the ball just escaped the post of the cage and bounced in for the tally.

Also scoring in the first quarter, Don Meeker of the Garnet hit the note at 14:19 with a boot from in front of the goal that nestled into the upper right hand corner. The game continued with no scores until 19:03 of the first period when Dan Rowley booted his first (continued on page four).

Moravian Defeated

In Cross County; Van Essendelft First

Through rain and stiff cold wind the Pard banner, led by Dave Van Essendelft, took first, second and third against Moravian College Saturday to win 21-04 before a Founder's Day crowd.

Van Essendelft, who finished the 5.0 mile course in 24:14, took first place in the season and in the Maroon to their third victory against one defeat.

Manny Geiger and Dick Thompson, both of Lafayette, followed. Van Essendelft across the line second and third respectively.

Moravian won fourth when Vic Burst finished close behind Thompson. Paul Glover crossed the line fifth and Joe Gaffanti finished sixth to round out the Lafayette scoring.

Van Essendelft said that he didn't find running in the cold rain, much different from running in easier weather. His time against found running in the cold rain didn't find running in the cold rain.

The only other tally of the day came at 28:26 when Vic Burst finished third at 24:14. No other runners made it through the line.

The second half saw the ball change hands regularly with the Maroons and Lyons. However, the superior points of the Pards with 57 yards in fourteen attempts and one of them when they let the ball change hands for 37 yards.
