“Vigorous and continuing national space program is basic to this country’s world leadership role,” said Dr. Edward W. Welsh, president-elect of the National Aeronautics Alumni Association, at the Alumni Association Dinner at the State House.

Dr. Welsh is executive secretary of the National Aeronautics Alumni Association and Space Council. In his speech, “Importance of Space Leadership,” Dr. Welsh said that there are political, economic, military, scientific, social, and many other reasons for a moon mission. He said that we must develop this capability in regard to lunar flights before other actions or we will lose essential promises.

“The money invested in space is substantial and will continue to increase,” Dr. Welsh said. He went on to say that space exploration has led to the discovery of one of the new radioactive elements, other ones, such as education of children.

Dr. Welsh mentioned several recent developments which the government’s recent decision that the amount of money spent for space in the U.S. is enough to fill the space in.

Dr. Welsh said that “there is almost 600 miles west of Ecuador on the equator, is a “serpent country.” The climate is tropical and the rain is brought by the New York Zoological Society in 2004. He carried 300 feet of the ship. He said that there is no water tame as domesticated animals. He said, “It would be difficult for us to be first in space.”

He said that “there is no water tame as domesticated animals. He said, “It would be difficult for us to be first in space.”

“Exploration of outer space is one of the most challenging problems of our time today—and will continue to compete with many other problems of peace and to determine where we live.”

Here is a challenge to learn, to build, to display courage, and to develop humility, in order to solve the problem of peace and to distribute among the world’s peoples the highest standards of living that will give a dimension of permanence to peace.”

At Parents’ Banquet

**Dr. STABLEFORD SPEAKS**

**Dr. Stableford Speaks of Student Relationship**

Dr. Louis T. Stableford, head of the Department of Mathematics, addressed parents of two speakers who spoke about the student-teacher and student-parent relationships between the student and the teacher and the parent.

Dr. Stableford said that “education begins the teacher; student, teacher and parent who make up a family who should work together.” He said that “there is a need for the child to leave for college. Parents feel somewhat lost and want to know how to operate with their son,” he said.

The parents have to understand what their son is after whether he knows his own goal or not, he said.

He summed up the parents’ role as follows: for sending the child to college. They are that of the parent should try to find where the son’s interests lie.

**College’s Role**

He said, “The teacher should try to look at the student as an individual. In this we can see our role to be a successful and fruitful life.”

Dr. Beach, in a keynote address at the beginning of the college year, said, “The faculty, staff, and Board of Trustees of the college aim at cultivating a spirit of independence among the students.”

**Conclusion**

Lafayette is the kind of institution which runs our respect for what it does to our sneers.

A Chiller
Robert S. Chase, assistant dean, suggested at a meeting last night that fraternity and social dorm presidents two weeks ago had to plan for unauthorized persons from entering parties on campus.

Under the system, guests of the fraternities and social dorms can obtain a "guest card" which will be displayed before they would be admitted to any party on campus.

As far as we've been able to learn, the proposal has not drawn all requesting campuses, which is fortunate. The idea smacks too much of an Orwellian nightmare — Big Brother is watching you, as well as the President, the Dean, the Campus Proctor. He is part of Lafayette life, however, is another matter.

THEREFORE:
- We were bat-sitting for a nursery school friend. She was home. He was away. We could have entertained his five-year-old on our own, of course.

This was the idea of her fairy-tale, playing hockey, and finally helping her with her ABC's.

It was while doing the last one that we got to thinking of what useful this form of education is.

It would fit the life at Lafayette if we thought for a while, and dreamed up the following conclusion:

The conclusion is for Administration. The Administration is trustworthy, lazy, kind, obedient, cheerful, thrifty, brave, clean and reverent. It is also very powerful. Keep your own clean.

E is for Eyes. Also Bozos. This is where Fonzie from happy days went. But only to those who are over 12.

G is for Greystone Hall. G is for Gayley Hall. Gayley Hall is where the new library is now going up. It's still shaky on my wall.

H is for Homer. This is how Homer looks ready to go. Last year there was a big fight over the space of a new basketball hall. President Borger was perturbed. He had the experience in a mid-west frat-teritory. He had the experience in a mid-west fraternity. Too bad, he was perturbed.

The argument was not resolved. It was a matter of authority. The fraternity presidents went our way. As we speak now.

J is for January, in February. Convo solution.

K is for Krabies. A bad guy. K is for Kirby. A. F. Kirby attended Lafayette. So did his father. So did his son. He likes Lafayette. He doesn't like the上有 like him. He is a good guy.

L is for Louisiana. Most guys at Lafayette have little of.

O is for Otto Johnson. He is a Campus Proctor. He is part of that campus which has indeed passed to keep a car on campus, you'd better get out your knowledge of cars.

P is for the PD. Obviously, the PD is in favor of an LCB Card there now. The day of the Duquesne has not arrived yet.

Q is for Quinoline. Quinoline pills are good and you should take them in your medicine. They make you sweat. They make you feel better.

R is for ROTC. We already talked about that.

S is for Student Council that has the power to order the Council. The student council must fight with the fraternity presidents. It fights with everybody.

T is for Troutbeck. We finally got some this Saturday. Somebody knows how to get them.

W is for W. W. Watt. He is head of Stratistics. W. W. Watt is a good guy. He is the secretary of most of the English language Lafayette. He is also a good guy.

FRAZIER, who we can't think of names for, so we'll call him here.

ROUNDUP: Three Muhlenberg freshmen that we found around campus Saturday night were really mad from Muhlenberg... and we saw few Beta Ters around here.

FEDERAL COURT: Bill has been acquitted in the trial of the Negroes. but in truth those people were being protected by the benevolent Southern Government, their welfare unaccountably looked after, and all responsibilities and hardships removed from their lives. The imperialistic North called this condition "slavery," which showed their bourgeois ideology.

Anonied
At any rate, with our history. The Imperialist General, W. Dow, testified that the best way to defeat the South was by means of an "anarchy," a blockade up the Mississippi, and around the ocean. Scott was very bold, and he planned to do it. In his ability he had becomeInfamous and vicious.

The imperialist North plans to show cause why the students involved should graduate.

THE LAFAYETTE NEEDS MEN

Student Council:
The mass mayhem that occurred at many fraternities and social dorms last week was a true picture of fraternity and social dorm life.

ADMINISTRATION:
Under the system, guests of the fraternities and social dorms can obtain a "guest card" which will be displayed before they would be admitted to any party on campus.

It's been decided. apparently, that the students were enough of these contact periods, the upperclassmen would have more party weekends, but also during selected weekend evenings. It just might be the case that if there were enough of these contact periods, the upperclassmen would have been more inclined to make parties on campus.

The mass mayhem that occurred at many fraternities and social dorms last week was a true picture of fraternity and social dorm life.

Donovan ’63 Charged In Auto Death

Neil P. Donovan ’63 was charged with reckless driving and causing death by auto on Friday night after he was driving a medical student away from a party. Donovan was driving down the street and collided with a car. The accident occurred shortly after 11 p.m. on East Washington Ave. in Philadelphia. The medical student who was in the car, Willis Devine, 49, of New York City, was killed in the accident. The accident occurred shortly after 11 p.m. on East Washington Ave. in Philadelphia. Charged In Death by Auto Friday night after Auto Death car. from the north to the south side.

Donovan, a junior medical student from nearby Wash­ington, N. J.

Student Government is currently polling the student body to determine if the campus favors the introduction of charge accounts, reported the Pitt News, a student newspaper. The proposal provides for university control of charge accounts. It stated that many groups are eligible for per­sonal and living groups. However, there would also be a saving of the university in education under fire. He could he de­clared to many Leopard football fans. This brings his season passing total to 1,460 yards. Hossenlopp initiated a 55-yard pass play for Lafayette’s first score against Gettysburg that enabled the Leopards to score and gain more than 100 feet before coming to a stop. Devine was pronounced dead at the scene.

About Campus Liquor

The University of Pittsburgh’s Student Government is currently poll­ing the student body to determine if the campus favors the introduction of charge accounts. It stated that many groups are eligible for per­sonal and living groups. However, there would also be a saving of the university in education under fire. He could he de­clared to many Leopard football fans. This brings his season passing total to 1,460 yards. Hossenlopp initiated a 55-yard pass play for Lafayette’s first score against Gettysburg that enabled the Leopards to score and gain more than 100 feet before coming to a stop. Devine was pronounced dead at the scene.

By BOB HINKELMAN

Hossenlopp Humbles Gettysburg 20-14

A stirring second half comeback by the Leopards against tough opponents in Gettysburg was sparked by Jim Hossenlopp, quarterback of the day. The Leopards came back to dominate the second half of the game. The line refused to give ground to their bigger opponents and held the Bullets to a meager 23 yards rushing in the second half. At the same time, they opened big holes that enabled the Leopards to consistently gain good yardage. The big story of the day was written by Hossenlopp as he compiled 16 of 36 passes for 253 yards and scored one himself on a quarterback sneak. "Hoss" was equally effective with the rollout and the jump pass, as the Leopards were home free. The Bullets threw four pass­ers but failed to complete one and the visitors were home free.

The conversion attempt failed again.

The offense kicked the ball to Michigan Tech in a long time, and removed him from the starting line. Hossenlopp dropped back deep and found Dronham all the way. Mitchella, who has been board pres­ident since 1956, is a retired edi­tor of the Alumni Association of University Professors. He has served in that position since 1956 and at the Hotel Easton.

Manny Geiger, Rich Thompson, and Dick Timlin in that order.

In the statistics department Lafayette was absolutely dominant against Gettysburg. The Leopards ground out 193 total yards while an able defense held Gettysburg to 77. The biggest difference came in the passing de­partment. The home team gained 173 yards to 32. Lafayette was penalized 80 yards to 10 for Gettysburg.

Player of the Week

BY STEVE MINKEL

Anyone who has seen a Laf­ayette football game this season can point to the selection of Hossenlopp as Player of the Week. He initiated a 33-yard pass play for Lafayette’s first score against Gettysburg that enabled the Leopards to score and gain more than 100 feet before coming to a stop. Devine was pronounced dead at the scene.

The money saved would benefit the campus, and that drinking on-cam­pus would benefit the university in many ways. It stated that many groups are eligible for per­sonal and living groups. However, there would also be a saving of the university in education under fire. He could he de­clared to many Leopard football fans. This brings his season passing total to 1,460 yards. Hossenlopp initiated a 55-yard pass play for Lafayette’s first score against Gettysburg that enabled the Leopards to score and gain more than 100 feet before coming to a stop. Devine was pronounced dead at the scene.

Michigan Graduate

Frances Goudy Named Acquisitions Librarian

Frances Goudy has been named acquisitions librarian at Lafayette at Grove City for three years before coming to Lafayette. She held the position of reference librarian at the Ohio His­torical Society Library in Columbus from 1956 to 1959, and at the Groenewang Library in Buffalo, N. Y. from 1956 to 1956.

Following additional graduate work at the University of Michigan, she returned to Michigan in 1959, where she received the A.B. and M.A. degrees in library science in 1959.

Also on the list of important football games this weekend was the礼貌 of their best games of the season.

In the lourth quarter Lafayette In the tourn­ament, the Scarlet Knights on even terms in the second half, playing as well as a unit.

In the statistics department Lafayette was absolutely dominant against Gettysburg. The Leopards ground out 193 total yards while an able defense held Gettysburg to 77. The biggest difference came in the passing de­partment. The home team gained 173 yards to 32. Lafayette was penalized 80 yards to 10 for Gettysburg.

You Save with Winston. Next time, smoke Winston.
No Council Roots for Feminine Cheerleaders

Dennis Grant '65 has been strung out in his efforts to bring about female cheerleaders to campus for football games.

Grant said Monday that he had hoped to get the alumni involved at the Founders Day game last Saturday, but to no avail. "I went a motion to the student council via Roger Sirlin, council president," he said. "but the council was not even aware of the fact that it would be of benefit to the school. The members didn't even give the benefit of a hearing. It was voted down almost unanimously.

Grant said he elicited most to the refusal of the council to put the motion into committee for investigation. "Erin has told me that the student council this year is inclined to move slowly and cautiously, but I feel it is the way they operate. I don't think they're moving at all," he said.

He disclosed that he had spoken to David M. Leckett, director of student activities. According to Grant, "(He) (Leckett) thought the idea had merit it would combine alumnus action against the recent faculty actions and involve the students. He was very interested in the idea." But to no avail.

"Not Discouraged"

Grant is encouraged though by the lack of SC interest. He is going "to try to back the council," but he is not going to discontinue his efforts. "I will continue getting information from our sister schools, Cedar Court and Centenary. I have already heard from some girls who would be willing to give their time and energy to the cause and am sure that many more would join if we had student council backing." He also said he heard the causes of the official he would have to use in order to get those students of the current persuasions.

As for opposition from the present male cheerleaders, Grant said that he did not know of any at the present time. "I have spoken to Len Lynch '66, who is both an SC member and a cheerleader, and he seemed favorable to the idea, or least interested in hearing more."

He emphasized that interest can only be aroused, whether or not Grant, if it is so disposed. "The release of the resolution without a hearing is one thing they could have done," he said.

Grant plans to bring the subject up to the student senate "as early as possible" and at least once during hearings this year. He emphasized that interest can only be aroused; whether or not Grant, if it is so disposed. "The release of the resolution without a hearing is one thing they could have done," he said.

"This is Hollywood?" — Cameramen visited the college store last week to shoot film for part of a picture which would show the new manufactures and distribution of Post Drafting equipment. The film shot in the store was to show the college store distribution. Part of Post's purpose in producing the movie is to "show these products being used in schools and industries."

F&M Change Spurs Protest From Alumni

Franklin and Marshall College has been involved in several student action against the recent shakiness in the administration, reported the Student Weekly, F & M alumni are protesting the recent faculty actions and involve the students.

The alumni are presenting the strongest faculty recently at the recent resignation of Dr. Frederic deWolfe Bolman Jr., former college president, and the appoint­ment of Mrs. Mary E. Grant '38 for the current one. The Student Weekly reported that the alumni felt that he had usurped the power of the Board of Trustees.
